Thank you Steve. We've already received 2 FOIAs primarily asking the question of who was in charge, what is their experience, under what authority (documentation) was the work being done, etc? I've forwarded ERRS' work plan and the follow-up question is "was it approved?" and is the approval documented (email or letter)? I will send you a copy of the FOIA as soon as I see it. Until then, please send me any emails or electronic documentation that you feel would address the focus of these FOIAs as soon as you are able (I know that you are driving and likely to be swamped for a significant amount of time). Perhaps, we could touch base tomorrow if that would work with your schedule. Thank you, Steve.
